WHITEPAPER · VERSION 2.0 · NOVEMBER 2026

PANDABUCK

STRONGER TOGETHER.

PandaBuck (PAB) is not just another memecoin. It is built around one idea: a community that grows together gets stronger together. PAB lives on ElyonChain, trades on ElyonDex and can be bought with USDT or USDC on eight networks.

INTRODUCTION

MORE THAN A COIN – A MOVEMENT

In a market driven by short-term gains, PandaBuck focuses on what makes any currency strong: its people. Every holder is part of a growing family that shares knowledge, tools and success — with annual meetings, exclusive events and a roadmap built for the long term.

VISION

Strength in numbers

A global community that thrives on collective strength, where every member benefits from the success of the whole.

MISSION

Grow together

A decentralised, inclusive community where members collaborate, learn and share resources — built on transparency.

VALUES

Unity · Trust · Fairness

Every token counts, every voice is heard, and the rules are the same for everyone.

THE TOKEN

MEET PAB

PAB is a standard ERC-20 token on ElyonChain with a fixed supply. The contract has no owner and no mint function — nobody, not even the team, can ever create more PAB.

TREASURY RELEASE

RELEASED SLOWLY, BUILT TO LAST

The treasury is not dumped on the market. It is released step by step — about 20 million PAB a year over five years — so supply grows with the community, not ahead of it.

- **Community** — airdrops for active members, creators and contributors, and governance rewards.
- **Markets** — exchange listings and liquidity that keep trading smooth.
- **Growth** — development, operations, partnerships and marketing.

PRICE & LIQUIDITY

ONE CENT. REAL LIQUIDITY.

PAB launched at $0.01 with a deep pool on ElyonDex, so buyers could trade from the first day. From there, the market sets the price: the pool's balance of PAB and USDT moves with every trade.

BUYING PAB

FOUR STEPS. NO EXCHANGE NEEDED.

1 Create your account
Email and password, confirmed with a 6-digit code — it takes less than a minute.

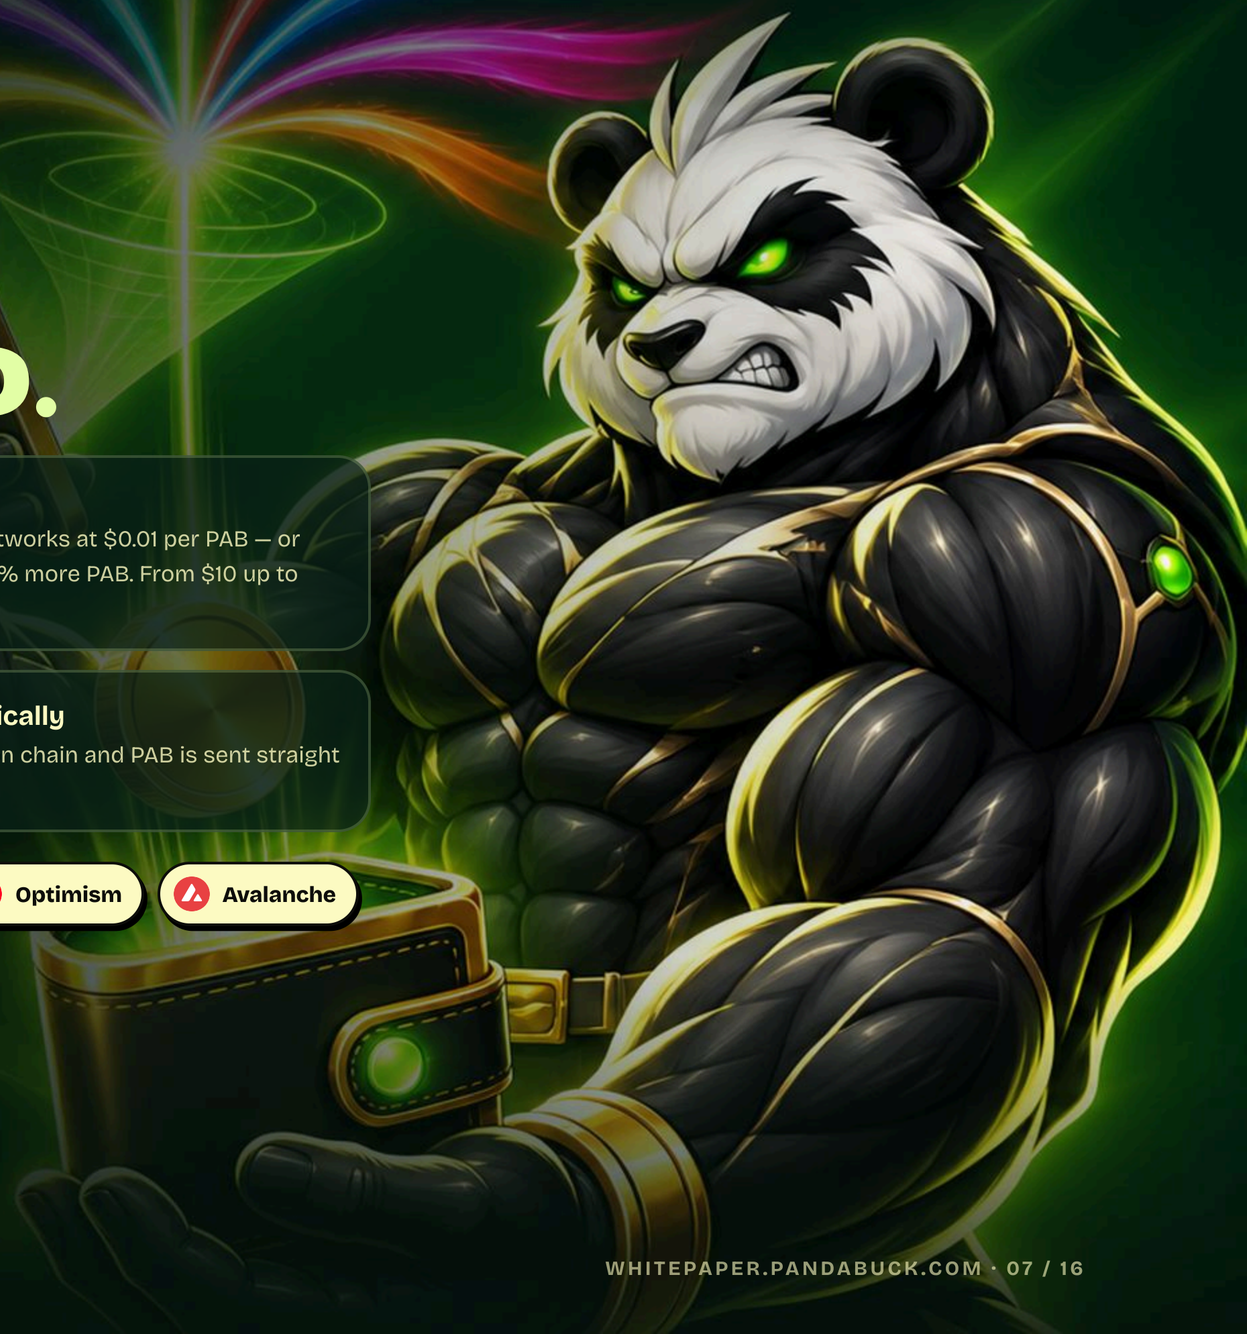

2 Choose how to pay
USDT or USDC on eight networks at $0.01 per PAB — or ELN on ElyonChain with 10% more PAB. From $10 up to $50,000 per order.

3 Pay to your personal address
A single-use deposit address with a QR code and one-tap MetaMask and Trust Wallet links.

4 Receive PAB automatically
The payment is detected on chain and PAB is sent straight to your ElyonChain wallet.

HOLD, TRADE, CASH OUT

YOUR PAB, YOUR CHOICE

- **Hold it in your wallet** — ElyonChain is an EVM network: MetaMask, Trust Wallet and others work, and the dashboard adds PAB in one tap.
- **Trade any time** — swap PAB for USDT, or back, in the PAB/USDT pool on ElyonDex.
- **Cash out** — withdraw your USDT to Tron, BNB Chain or Ethereum through the ElyonDex bridge.
- **Earn more** — the PAB Reward Program pays $3 for your first Elyon DEX trade, $7 for 10 friends and $5 for $100 of spot volume.

PLAY & EARN

WIN GAMES. EARN PAB.

PandaBuck brings competition and fun to the coin: chess and other competitive games where players earn PAB with every victory.

SOLO

Score points

Turn your points into PAB that you can trade on the exchange.

MULTIPLAYER

Winner takes all

Wager PAB against other players in online matches.

TELEGRAM

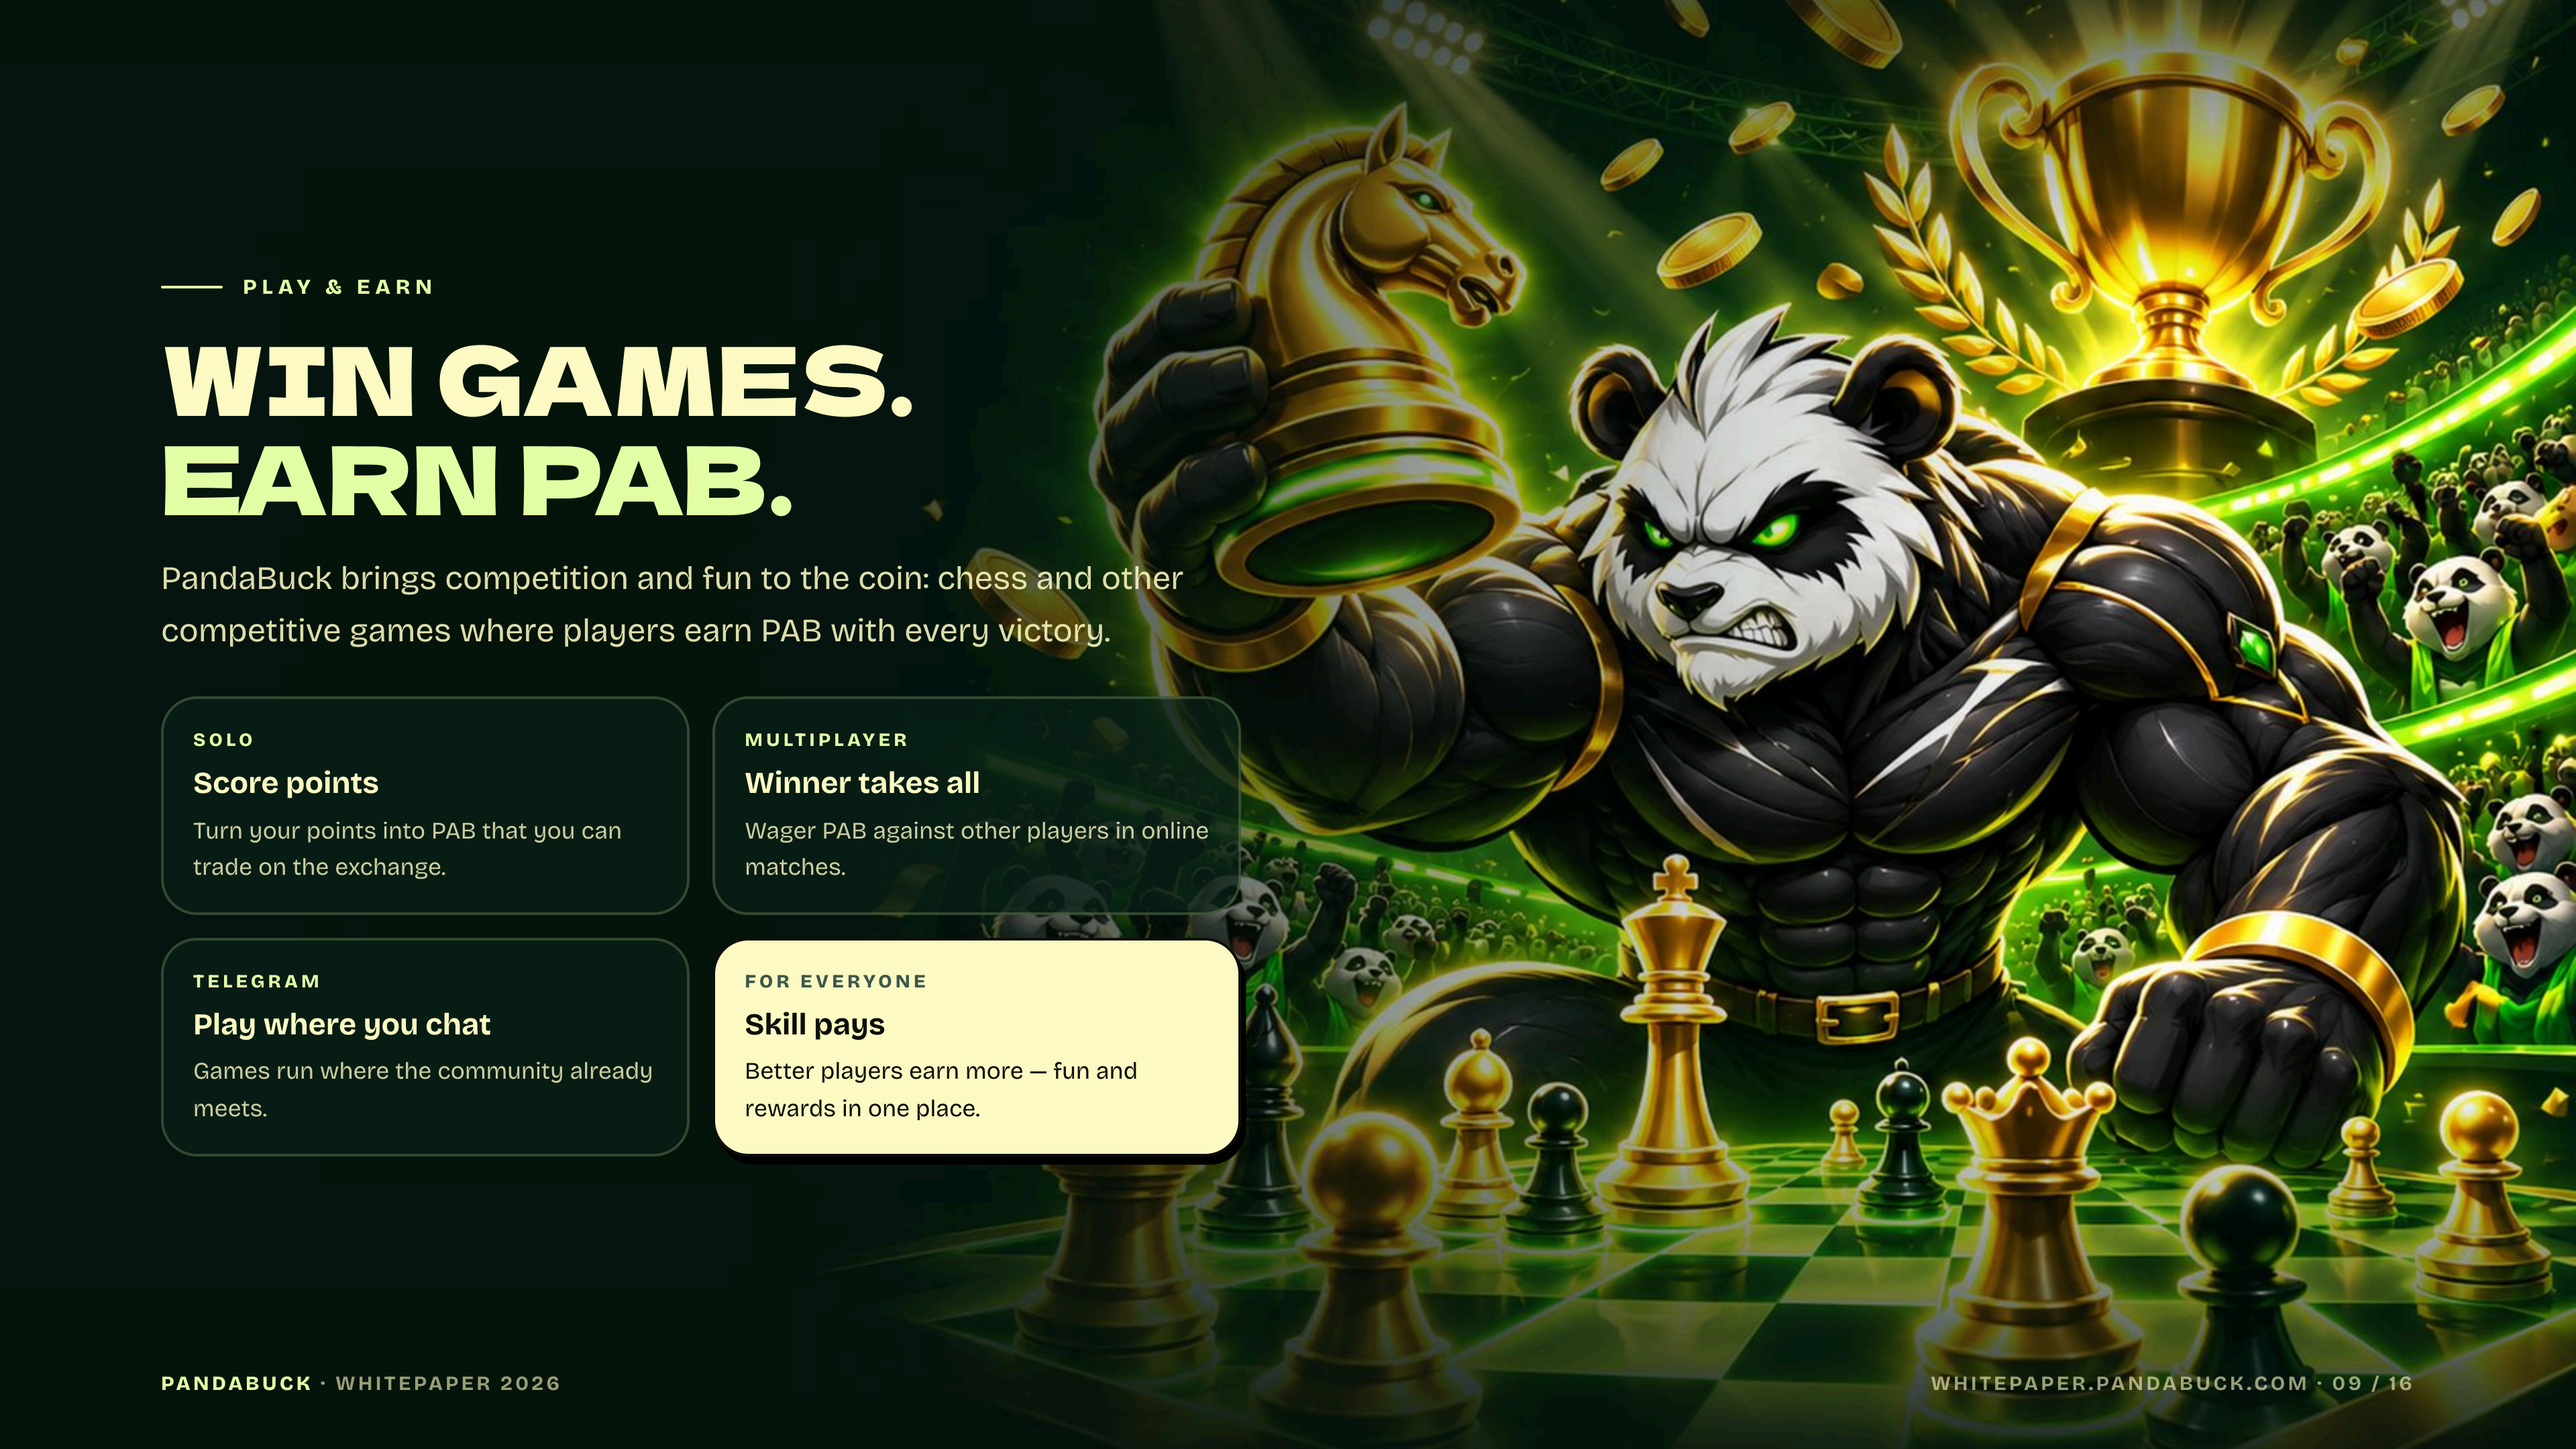

Play where you chat

Games run where the community already meets.

FOR EVERYONE

Skill pays

Better players earn more — fun and rewards in one place.

COMMUNITY & GOVERNANCE

EVERY MEMBER HAS A VOICE

PandaBuck is shaped by its community. Major decisions — changes to the token economics, partnerships and community initiatives — are decided by a democratic vote. Voting power follows the PAB you hold, but every member, whatever their holdings, has a say.

EVERY YEAR

Annual meetings

Members propose initiatives, vote on key decisions and plan projects. Locations rotate around the world.

TOGETHER

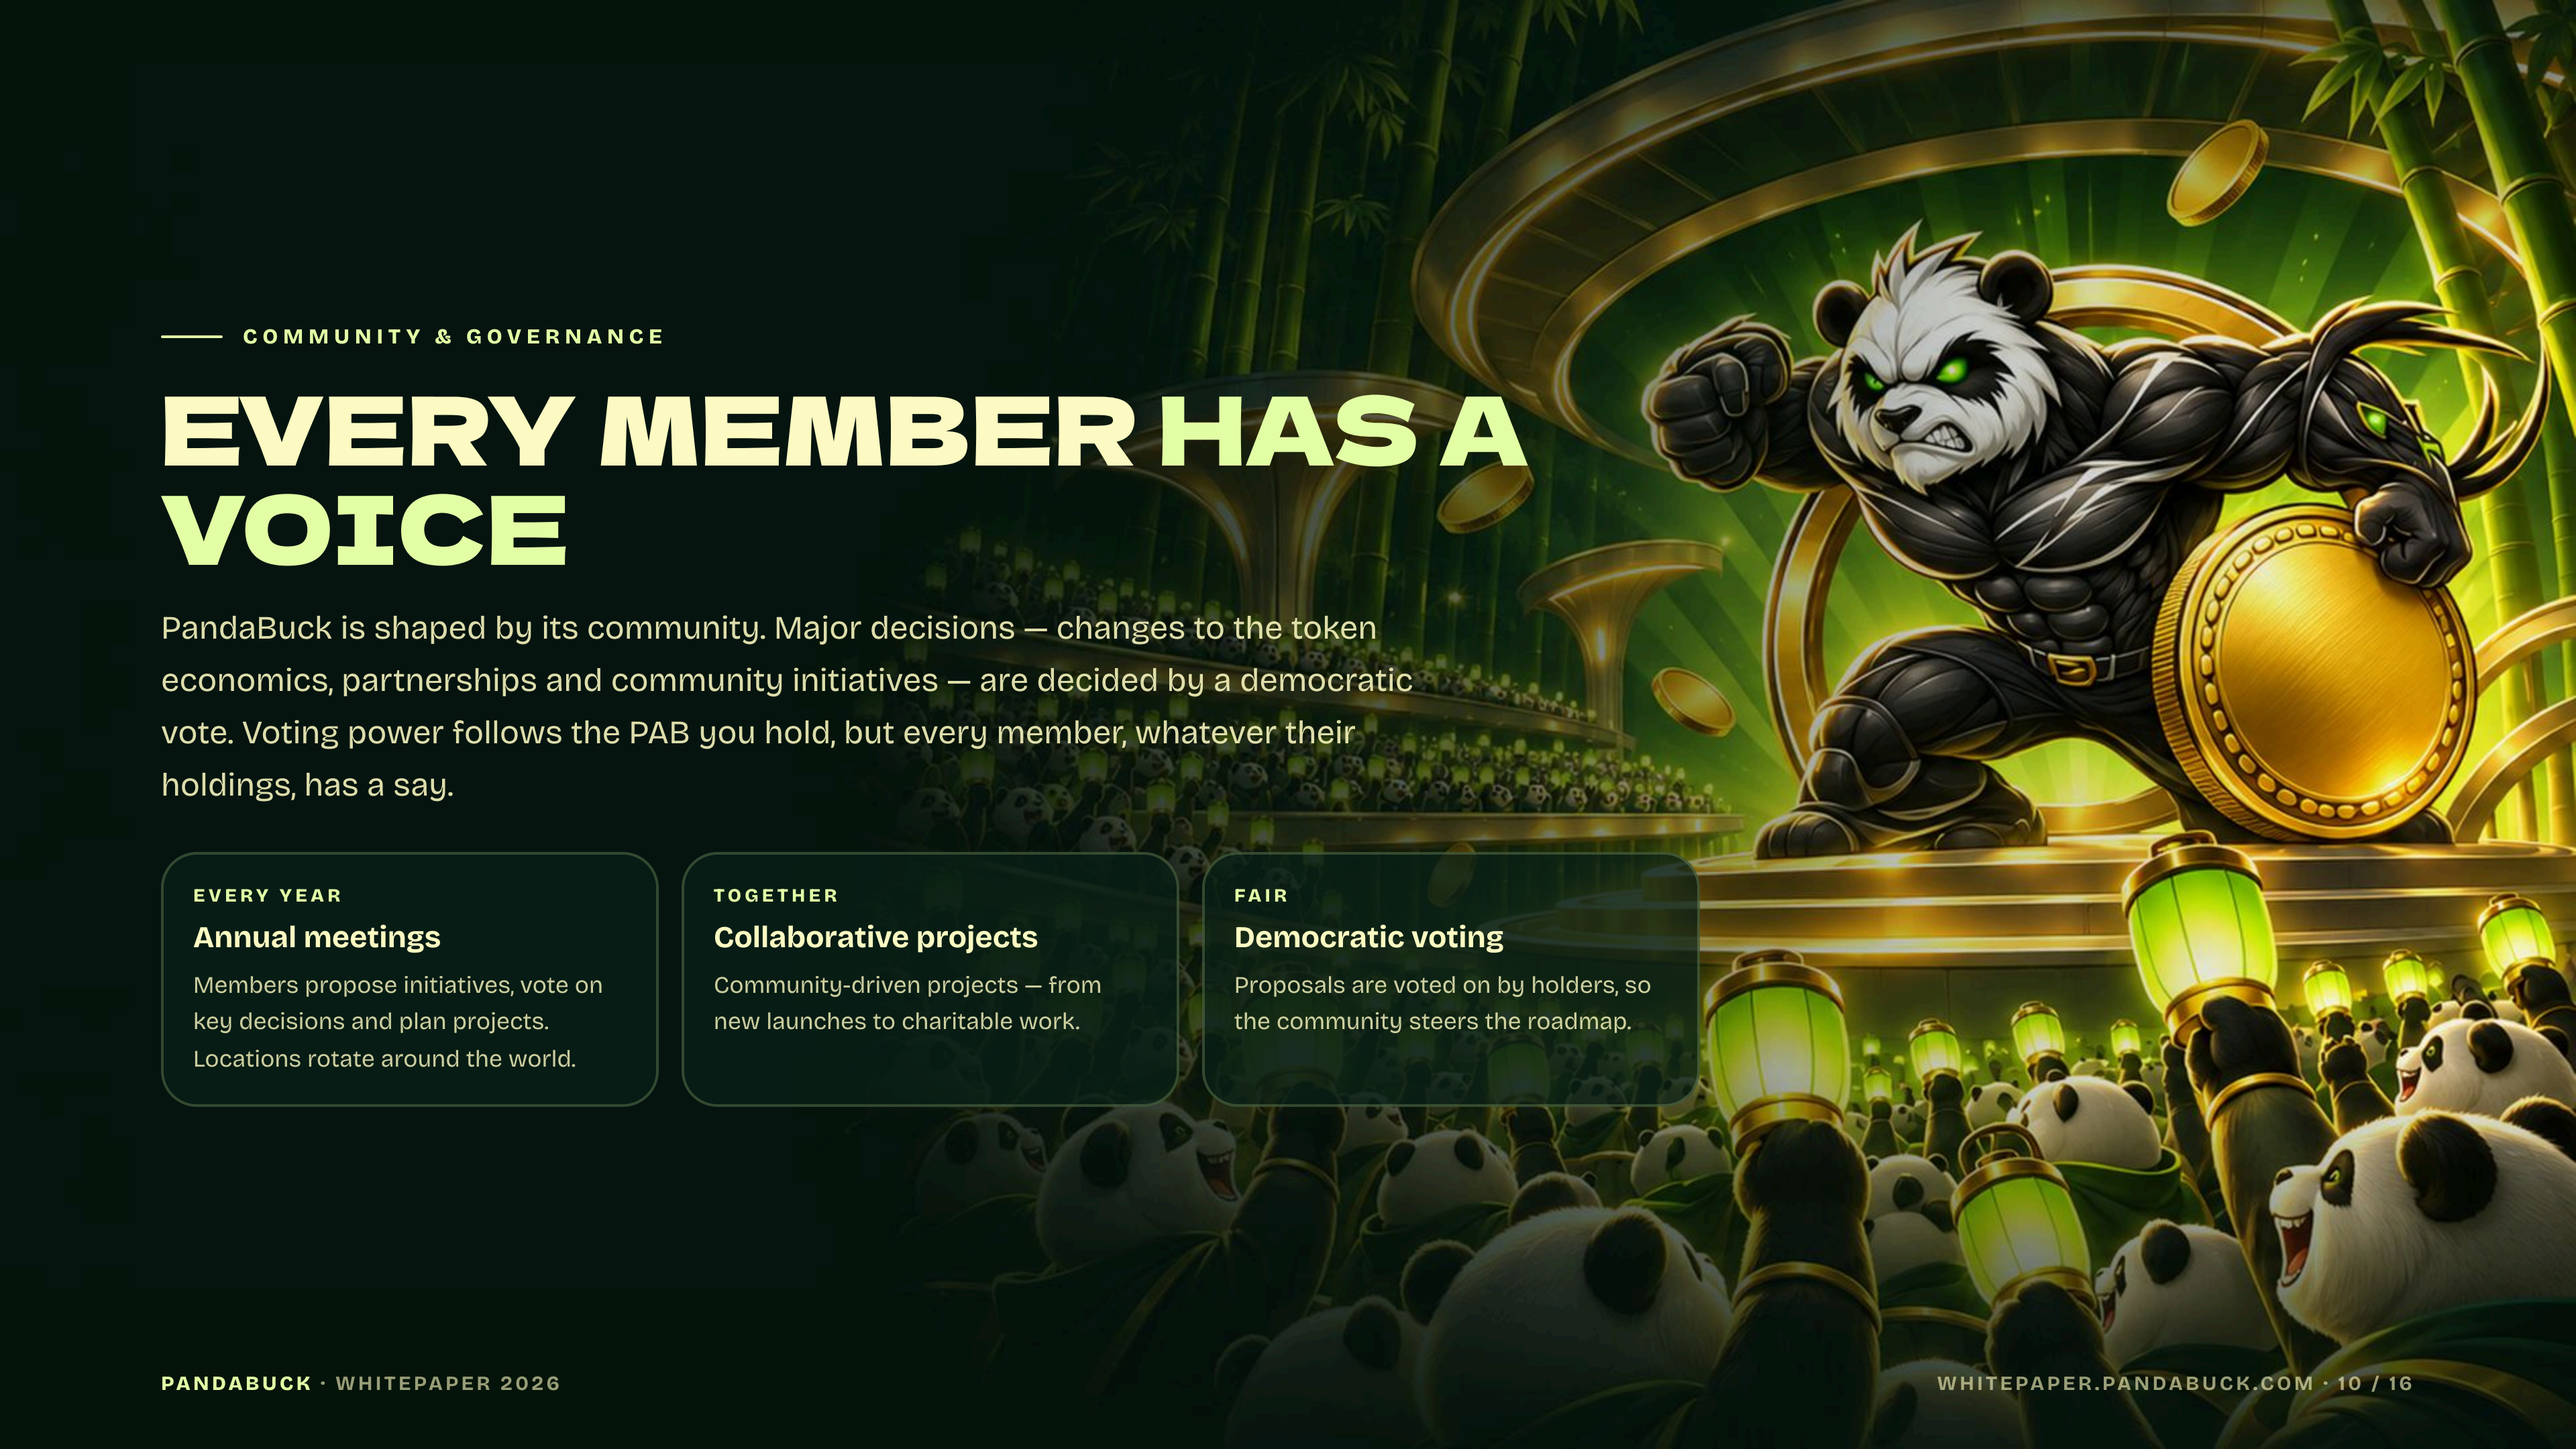

Collaborative projects

Community-driven projects — from new launches to charitable work.

FAIR

Democratic voting

Proposals are voted on by holders, so the community steers the roadmap.

TOOLS, EDUCATION & REWARDS

GROW SMARTER. GET REWARDED.

EDUCATION

Learn with the community

Webinars, courses and tutorials on crypto, blockchain and investing.

EXCLUSIVE TOOLS

Trade with insight

Advanced trading tools, analytics and market insights for PAB holders.

TIERED REWARDS

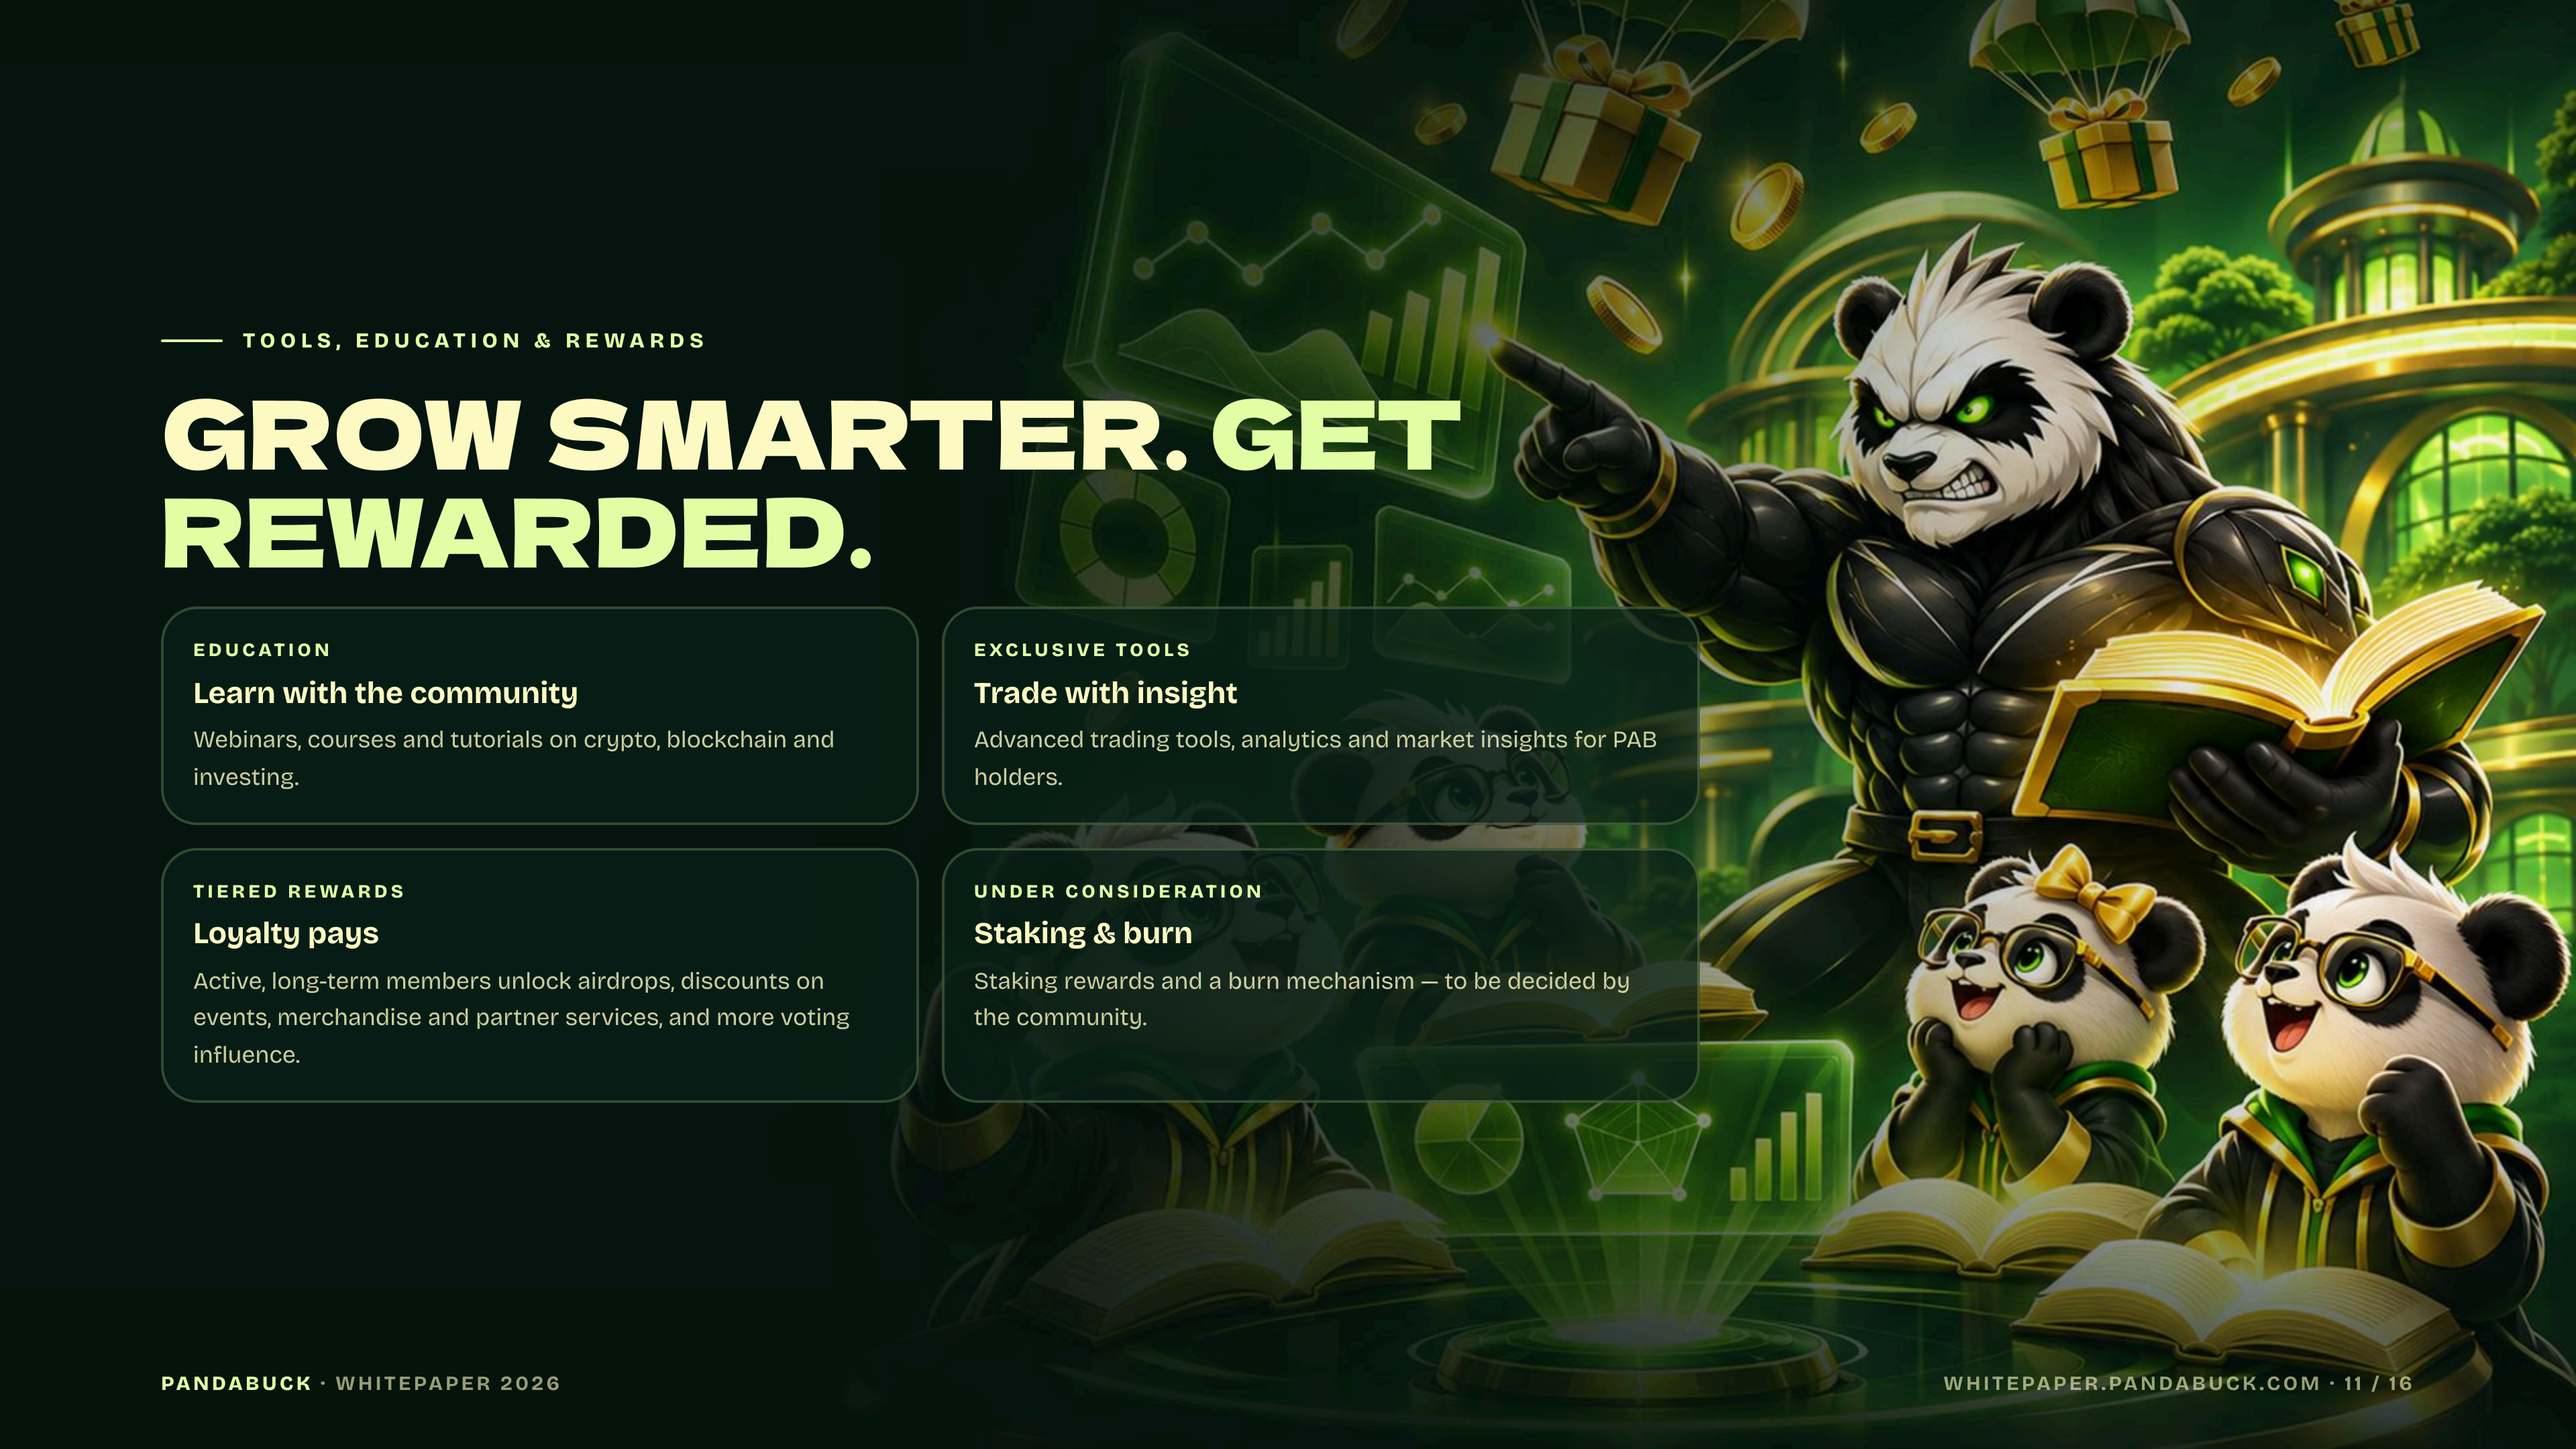

Loyalty pays

Active, long-term members unlock airdrops, discounts on events, merchandise and partner services, and more voting influence.

UNDER CONSIDERATION

Staking & burn

Staking rewards and a burn mechanism — to be decided by the community.

SECURITY & TRANSPARENCY

TRUST, PROVEN ON CHAIN

- **Fixed supply** — the PAB contract has no owner and no mint function.
- **Every payment proven** — PAB is sent only after the transaction, address and amount are confirmed on chain; each delivery is signed once and can never be paid twice.
- **Public mother wallets** — payments are collected into published treasury wallets, visible on every network's explorer.
- **Use of funds** — sale proceeds fund community development, technology, and marketing and growth.
- **Safe accounts** — Argon2id-hashed passwords, email verification codes and automatic lockout. PandaBuck never asks for your seed phrase.

TECHNOLOGY

BUILT ON ELYONCHAIN

PAB runs on proven, public infrastructure — and every step from payment to delivery is automated.

BLOCKCHAIN

ElyonChain

An EVM-compatible network where PAB lives. Fees are paid in ELN; everything is public on explorer.elyon.network.

EXCHANGE

ElyonDex

An automated market maker with the PAB/USDT pool, plus a bridge to cash out USDT.

PAYMENTS

PandaBuck sale engine

Watches eight networks for USDT and USDC, waits for confirmations and delivers PAB automatically, 24/7.

IMPORTANT

KNOW THE RISKS

- **Prices move** — the value of PAB can go down as well as up, and you can lose the money you spend.
- **No promises** — nothing here is investment advice or a guarantee of profit.
- **Your responsibility** — buy only what you can afford to lose, and check the laws and taxes where you live.
- **Technology risk** — blockchains, bridges and wallets can fail or be attacked. Keep your keys safe.
- **Plans evolve** — the roadmap reflects current intentions and may change with the community and the market.
